Florida Medicaid System Outstanding Credit Balances

In the state of Florida, providers who owe money to the Florida Medicaid System in the form of credit balances cannot be linked to a new tax identification number. If you have credit balances with Florida Medicaid, it will prevent the University of Florida from billing Medicaid until or unless the credit balances are resolved. You may have such outstanding credit balances without being aware of this issue.

If you have seen Florida Medicaid patients, please contact all your previous employers who billed for you with the state of Florida Medicaid System to ensure that all credit balances under your name and provider number have been resolved. You also may contact Florida Medicaid directly, by telephoning their fiscal intermediary, ACS, at (800) 289-7799.

Please check the appropriate statement below, and sign the bottom portion of this document. We cannot proceed with the employment process until you have completed this document.

_____ I have never seen any Florida Medicaid patients

_____ I have seen Florida Medicaid patients and have checked with each of my former employers and/or Florida Medicaid. I have no credit balances owed to the state of Florida.

_____ I have seen Florida Medicaid patients and have checked with each of my former employers and/or Florida Medicaid. I do have credit balances owed to the state of Florida totaling \$ _____. (Please list the former employers with credit balances.)
