County Health Rankings & Roadmaps

COUNTY

Clay, FL

2023

Rank **#21** of 67 ranked counties in Florida

Health Outcomes

Health Outcomes tell us how long people live on average within a community, and how much physical and mental health people experience in a community while they are alive.
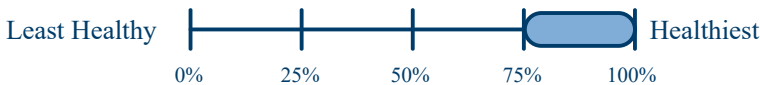

Clay (CL) is ranked in the higher middle range of counties in Florida (Higher 50%-75%).
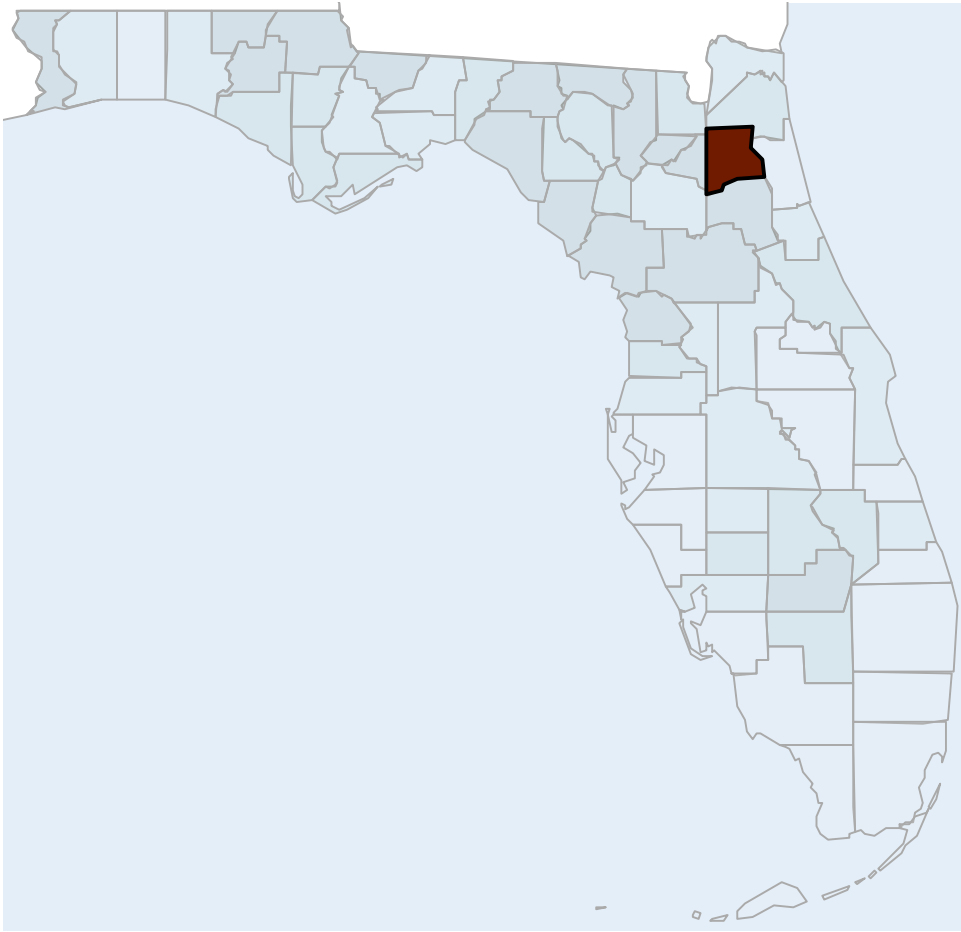

Least Healthy ├────────┼──────────◖█████◗───┤ Healthiest
        0%   25%   50%   75%   100%

Health Factors

Many things influence how well and how long we live. Health Factors represent those things we can improve to live longer and healthier lives. They are indicators of the future health of our communities.

Clay (CL) is ranked among the healthiest counties in Florida (Highest 75%-100%).

County Demographics

The health of a place results from past and present policies and practices. The land known as Clay County, along with the entirety of the U.S., has been home for many thousands of years to hundreds of Indigenous nations. Native Land Digital "strives to create and foster conversations about the history of colonialism, Indigenous ways of knowing, and settler-Indigenous relations."

Clay County, Florida is Metropolitan (intersecting an urban core area of 50,000 or more population). In Clay County, 15% of the population lives in a low population density area (500 or fewer people per square mile and less than 2,500 people).
