The UF Clinical and Translational Science Institute (CTSI) is now accepting applications for its KL2 Multidisciplinary Program for Junior Faculty, which provides two years of financial support and research training to develop the skills necessary to build a well-funded, collaborative career in clinical/ translational research.

Junior faculty at the assistant professor level and post-doctoral fellows anticipating appointment at that rank, with an M.D., Ph.D. or equivalent degree in the health sciences are encouraged to apply; please see the web page linked below for additional eligibility criteria.

The CTSI welcomes applicants from any of the Health Science related programs at UF, as well as COM-JAX, UF Research and Education Center (Orlando) and Sid Martin Incubator (Alachua)

See below for award benefits, an overview of the application process with a link to complete details, and contacts for questions.

**Applications are due by 5 p.m. on Monday, December 21, 2020**

**AWARD BENEFITS**

KL2 Scholars receive:

- Partial salary support each year for two years to cover approximately 75 percent assigned effort up to a maximum of \$109,165, plus fringe benefits. Support may be extended in selected circumstances;
- Up to \$10,000 per year for research-related activities, such as textbooks and courses; biostatistical consulting and support for your project (\$75/hour);
- \$2,500 per year for travel to academic conferences;

**APPLICATION PROCESS**

Applicants must propose a multidisciplinary clinical/ translational research project; identify at least two mentors (one each from at least two different disciplines); secure guaranteed protection of 75 percent full-time professional effort for participation in the program (may be negotiable to a minimum of 50 percent effort for selected situations); and demonstrate related academic qualifications and career goals.
