UFJPI Education: CPC Review

This course is recommended for participants who are ready to take the CPC (Certified Professional Coder) certification exam.

This workshop will review:

- Medical Terminology
- Anatomy
- CPT Coding
- ICD-10 Coding
- HCPCS Coding
- Coding Concepts

This classwill be held over an 8 week period, which includes two 2-hour sessions per week. The course is designed as a REVIEW of concepts necessary to pass the CPC exam. The focus is on test-taking preparation rather than on teaching concepts. Sessions consist of lecture, take home exercises, timed practice tests and group discussion.

Prerequisites:

Medical Terminology | Anatomy for Coding | CPT | Introduction to ICD-10
