

## **UFJPI Education: Evaluation and Management Workshop**

This Workshop will:

- Help the participant go step by step in reading a medical record
- Teach the participant how to analyze the components of an E/M service: history, exam and medical decision making, counseling/coordination of care and time.

At the end of this 2-hour workshop, the participant should be better able to determine what level of E/M service should be used for billing purposes based on the documentation in the medical record. This is a workshop only; there are no tests or quizzes administered. CEUs (Continuing Education Units) will be awarded upon completion.

Prerequisites:

Medical Terminology | Anatomy for Coding | CPT | Introduction to ICD-10
